Want it for APSS, want som

What does the client SAY

- Founded during rise in Aids crisis
- Lots of drug use
- want people to seek help
- have colour and pictures
- Old website too confusing

What does the client THINK

- Want something engaging
- want a research based website
- Old website doesn't have a modern design

What User is this?

APSS

What does the client DO

, APSS CAIDS Program South Saskatchewan
• Non profit
- focus on HIV, STI's
• Pick up discared needles around regina.
- they give out exchange/safe disposal program.
- Provide support for ppl affected by HIV

• Report needles, is a project. You report a needles location, maybe add pics/description and they go remove it

What does the client FEEL

• Have pictures accurate
• Easy to use
• Likes "Eaton Lab"
• Doesn't like to text driven.

Pain feelings

- too scientific
- high rate of infection
• too much text

Gain feelings

- Add "Report needles".
- good visuals
- Publish research
